About me

I am English and have lived in Norway since 2012. I have recently completed a two-year course and have work experience in the field of UX design.

I am very motivated to start a career in UX/UI design, where I can continually develop my competence and make significant contributions to projects within the design thinking process.

Key experience

- Worked with Norwegian major dairy retailer TINE Handel to develop their e-commerce website and received very good feedback.
- Voluntary developed the website to the British Geriatrics Society concerned about medicine dosage for Parkinsons patients.

Knowledge

- Data analysis and mapping
- UX Design thinking process
- Usability testing
- Ecosystems for a range of digital platforms
- Programs: Figma, Adobe XD, Miro, Illustrator

Skills and personal qualities

- I am passionate about user-centred and responsive design which has a focus on user goals and pain points.
- Generating ideas and finding solutions.
- Working with others, listening to the views of others and together working towards design solutions.
